

**IT'S TIME TO MAKE WHAT ONCE WAS
AUSTRALIA'S GREATEST UNION,
GREAT AGAIN.**

For anyone who has ever read the history of the Australian Workers Union, you'll know that we were the Union who led this nation in industrial relations achievements for our members by delivering the goods to the working men and women of Australia.

Today, 103 years after our foundation, our members are not being led, but *mis-led* into chaos.

The Union has no policies on the things that matter, we represent some of the lowest paid workers in Australia. The men who led the shearers strike at the turn of the century would roll in their graves at the shameful disaster that carries the name of the Union they led up so proudly.

**Bruce Wilson and Bill Ludwig
have had enough:**

Enough of luxury homes on Sydney's North Shore purchased with \$395,000.00 of your union fees for an executive mansion for the Union hierarchy.

Enough of political interference in our Union, enough of Union officials who sit at their desks awaiting the ultimate superannuation and retirement fund ... a seat in the Senate.

Enough of the incompetence that saw Union owned buildings sold for less than 25% of their real value.

Enough of Unions deals where more than \$100,000.00 was spent to publish our unions once-proud history and all we've ever got is a court action.

Recent AWU administrations have destroyed our reputation, brought our Union into disrepute, misused our hard earned funds, played party politics and allowed politicians to use the union.

They have forgotten the workers.

**Over the next few days, you owe it to
yourself and your future
to put an end to this nonsense.**
